

LONG ISLAND
It's Not About Buildings... It's About People.

GPRO Getting Started with Green Building

Interested in a career in sustainability and the building industry, but not sure where to start?

September 16th 2025

9:00AM – 12:00PM

What is this training about?

Green building is a critical solution to climate change, and the career pathways in this field are growing faster than ever. In **GPRO Getting Started with Green Building** you'll explore the wide array of different career paths across building design, construction, operations and more.

Whether you are just beginning your career or looking to pivot to a new career in green building, you'll walk away with a new understanding of the field and how to assess which pathway may be right for you.

What will you learn?

By the end of this training, you will be able to:

- ✓ Explain how jobs in green building can have an impact on climate change
- ✓ Recognize the key systems and stakeholders that contribute to a high-performance building
- ✓ Understand the wide variety of jobs and skills that are needed for green building
- ✓ Consider what career pathway you might pursue in the green building field

Who is this training for?

This training is ideal for anyone entering the workforce and interested in exploring careers in the green building industry, including:

- ✓ New workers or workers looking to pivot to a new area
- ✓ Students from Career Technical Schools
- ✓ Individuals participating in workforce development programs
- ✓ Students interested in entering the building or construction industry

What should you expect?

GPRO Getting Started is a 3-hour training that is taught live, either in-person or remotely, by a highly knowledgeable instructor with industry experience. You are encouraged to ask questions and participate in classroom discussions and activities.

After completing the training, you can earn a GPRO Getting Started with Green Building Certificate by passing a 25-question multiple-choice exam.

GPRO Getting Started qualifies for 2.5 AIA (LU) and 2.5 GBCI credits.
